

## **TP ICAP's Data and Analytics division extends its partnership with Japan's leading domestic vendor, QUICK Corp.**

16 July 2020

TP ICAP Group, the world's largest interdealer broker, today announces that its Data & Analytics division has signed an extension to its agreement with leading Japanese information vendor QUICK Corp.

This extension allows QUICK Corp. to continue to provide its customers with market-leading OTC Market data from Tullett Prebon, a subsidiary of TP ICAP. The move extends the long-standing partnership between the two organisations and highlights the important role that TP ICAP's Data & Analytics plays in this region.

Data sets will expand to cover money markets, derivatives, fixed income and foreign exchange, and will be accessible over the QUICK terminal service. This agreement includes innovation around risk-free rates and supports the growing consumption of Tullett Prebon data in middle and back office applications – such as risk management, compliance and analytics – by QUICK's customer base.

Andrew Reeve, Global Head of Channel Partners at TP ICAP Data & Analytics division, said: "One of TP ICAP's major advantages is that it reaches into all markets. This important collaboration with QUICK Corp. highlights our role as a key regional operator in Japan and reflects our understanding of the unique complexities and fragmented nature of the Asian market."

Hideki Minoji, Director at QUICK Corp. said: "QUICK Corp. is pleased with the extension of its partnership with TP ICAP and the longstanding partnership we've built. The breadth and depth of TP ICAP datasets allow QUICK wide flexibility to offer QUICK customers comprehensive datasets. QUICK believes the extension of the distribution agreement will certainly benefit users and clients of QUICK and continue to meet their requirements."

ENDS

### **About TP ICAP**

TP ICAP is a global firm of professional intermediaries that plays a pivotal role in the world's financial, energy and commodities markets.
