

## TP ICAP Launches SURFIX Market Data API Service

**TP ICAP Data & Analytics aggregates ICAP, Tullett Prebon and PVM data via SURFIX**

**05 November 2020 – London:**

TP ICAP Group, a leading provider of market infrastructure and OTC data, today announces that its SURFIX market data feed is now live. This is a market-leading service which enables customers to receive all TP ICAP market data via a single consolidated feed, rather than through multiple different feeds.

In what is a market-leading move, TP ICAP shared FX, money markets, rates and derivatives data from its Tullett Prebon and ICAP brands with German bank, L-Bank. FIX has become the chosen electronic communications protocol of global financial markets and SURFIX, which is based on FIX 5.02, allows for a greater breadth and volume of TP ICAP data to be shared with clients via one single feed.

**Jonathan Cooper, Global Head of Sales, TP ICAP Data & Analytics**, said: “By introducing SURFIX we are able to provide a fast and reliable stream of data directly to clients. As a major provider of market data, we’re able to share data for all security types, from all brands, directly with our clients, enabling us to meet their enterprise needs and reduce the total cost of ownership.”

L-Bank and TP ICAP partnered with oraise, a leading information technology services company, to complete the SURFIX connection, enabling L-Bank to seamlessly integrate TP ICAP data within its workflow requirements.

**Manuel Räber, CEO oraise**, said: “We are very pleased to have partnered with TP ICAP on SURFIX, enriching our SnapFlux market data hub with a valuable data source for our customers, providing them with ever more choices in meeting their specific market data requirements.”

TP ICAP is a global firm of professional intermediaries that plays a pivotal role in the world's financial, energy and commodities markets.

Operating through our core businesses, Tullett Prebon, ICAP, PVM, Coex Partners, Tullett Prebon Information, ICAP Information Services and PVM Data Services, we create strong networks in person and through technology. We provide comprehensive analysis and insight into market conditions and long-term trends. We combine data, knowledge and intelligence into contextual insight and commercial guidance. By engaging with our clients, and providing innovative products and services, we enable our clients to transact with confidence, facilitating the flow of capital and commodities around the world, enhancing investment and contributing to economic growth.

Our values of honesty, integrity, respect and excellence underpin everything we do.

**About the oraise Group:**

oraise is an independent IT services company in the European financial industry, focused on providing financial information and stock market services. Oraise offers products, services and consulting for the integration and operation of market and transaction data. Its clients include banks, stock exchanges, market data providers and financial service providers, as well as commercial and treasury departments of large industrial and insurance companies. For over 20 years, oraise has been successfully active in these business areas as an owner-managed company. Certified according to ISO 27001 since 2017, oraise undertakes strategic outsourcing of IT systems and processes in the highly regulated financial market.
