SECTION 6 TRANSACTION EXECUTION

16. Authorised Traders

- 16.1 Each Participant shall designate one or more Authorised Traders.
- 16.2 Each Participant shall ensure that each of its Authorised Traders:
- 16.2.1 complies with the MTF Rules and conducts its business in relation to the Tullett Prebon Securities MTF in accordance with Applicable Law and any Designated Code of Conduct (to the extent that it is applicable to such business and as specified by the Operator);
 - 16.2.2 has the requisite authorisations and approvals to exercise Trading Privileges in accordance with Applicable Law;
 - 16.2.3 has the authority to adjust or withdraw any Order submitted under any User ID assigned to them at the request of the Operator; and
 - 16.2.4 are technically proficient.
- 16.3 The Operator will assign each Authorised Trader a User ID. Participants shall ensure that their Authorised Traders shall keep confidential all User IDs and any other account numbers and or passwords related to the Tullett Prebon Securities MTF.
- 16.4 The User ID assigned to an Authorised Trader may not be used by or reassigned to any other person. No person may access the Tullett Prebon Securities MTF or submit Orders using a User ID that has not been assigned specifically to that person.
- 16.5 The Operator may refuse to recognise the designation of a person as an Authorised Trader by not granting, revoking or suspending that person's User ID in order to protect other Participants and the integrity of the Tullett Prebon Securities MTF, and the Operator shall promptly notify the related Participant of any such action.
- 16.6 Participants must terminate an Authorised Trader's access to the Tullett Prebon Securities MTF upon termination of the Authorised Trader's appointment, employment or authorisation. A person will cease to be an Authorised Trader upon revocation of their User ID. Operator will promptly revoke the User ID of an Authorised Trader following receipt of a request from the relevant Venue User.
- 16.7 Each Participant shall be responsible for all Orders submitted or Transactions entered into using any of the User IDs assigned to its Authorised Traders.

17. Cessation of Use or Access

- 17.1 Where a Participant has given notice of its intent to cease exercising its Trading Privileges or accessing the Tullett Prebon Securities MTF, the MTF Rules will continue to bind the Participant until:
- 17.1.1 all of the Participant's outstanding Orders have resulted in Matched and/or Executed Transactions, or have been cancelled or withdrawn;

17.1.2 all outstanding obligations of the Participant with respect to Transactions have been performed;

17.1.3 all other outstanding obligations of the Participant under the MTF Rules (including without limitation the settlement of any outstanding Venue Fees or other sums due) have been performed; and

17.1.4 the Participant has ceased using or accessing the Tullett Prebon Securities MTF, returned any physical property of the Operator or any Affiliate of it, and destroyed or securely deleted any software or confidential information applicable to the Operator or copies thereof. On request from the Operator, the Participant shall provide the Operator with a written statement signed by its Authorised Representative confirming such actions have been taken.

18. Connection to the Trade Capture System

18.1 When supported for Products as detailed in the Products and Procedures Manuals, Participants may connect directly to the Trade Capture System via a graphical user interface (“GUI”) or an application program interface (“API”), which allows third-party trading systems to interact with the Trade Capture System.

19. Submission of Orders

19.1 Orders may be submitted to the Tullett Prebon Securities MTF as provided for in the applicable Products and Procedures Manual.

19.2 Orders submitted by Participants to the Tullett Prebon Securities MTF must include the User ID assigned to the Authorised Trader.

20. Cancellation or rejection of Orders

20.1 Participants may cancel, withdraw or amend an Order; provided, however, that an Order may no longer be cancelled, withdrawn or amended once it has been Executed.

20.2 The Operator may reject any Orders that in the Operator’s opinion are erroneous or that exceed volume or price thresholds set by the Operator. The Operator may apply the relevant Venue Fee for a rejected Order.

20.3 When an Authorised Trader disconnects from a Trading System operated by the Tullett Prebon Securities MTF, which is being accessed through an API, all of its outstanding Trade Requests on each of the applicable Trading Systems will be cancelled and withdrawn.

21. Matching and Execution

21.1 An Order submitted in accordance with the MTF Rules can potentially interact with other opposite Orders in the Tullett Prebon Securities MTF until such time as the Order:

21.1.1 has Traded on the Tullett Prebon Securities MTF in accordance with the MTF Rules;
or

21.1.2 has been rejected, cancelled or withdrawn in accordance with Rules 15 or 20.

22. Package Transactions

22.1 Package Transactions may be agreed by two or more Participants on the Tullett Prebon Securities MTF. Once the Package price is Matched, the counterparties are contractually obliged to Execute the individual component legs of the Package Transaction.

22.2 If execution of any component of a Package Transaction on the Tullett Prebon Securities MTF requires an order to be placed at another Execution Venue or a trade registered on another execution venue, then the relevant Participant shall be responsible for the execution of such component by the Operator, an Affiliate of it, or a third party appointed by it.

23. Pre-Execution Credit Checks

23.1 Prior to the Execution of any Cleared Derivative Transaction (including any Cleared Derivative Transaction that is a leg of a Package Transaction) for which the relevant Participant is not a Clearing Member, the Operator will facilitate pre-execution credit screening by or on behalf of the Participant's designated Clearing Member. Upon receiving timely confirmation that the Cleared Derivative Transaction will not exceed the Clearing Member's pre-execution limits with respect to such Participant, the Operator will accept the Cleared Derivative Transaction for Execution. If the Operator does not promptly receive timely confirmation or receives notice that the Cleared Derivative Transaction does not satisfy the Clearing Firm's pre-execution limits with respect to such Participant, the Operator will cancel that Cleared Derivative Transaction and may apply the applicable Venue Fee.

23.2 Any Participant that is a Clearing Member with respect to a Cleared Derivative Transaction is deemed to represent, by submitting an Order for its proprietary account, that it has completed pre-execution screening of its internal clearing risk limits for proprietary accounts.

24. Confirmations

24.1 The Operator may send a Confirmation to each Participant that is a counterparty to a Transaction Executed or registered on the Tullett Prebon Securities MTF, at the time that the Transaction is Executed or registered or as soon as reasonably practicable thereafter. Each Participant shall review any Confirmation for a Transaction Executed or registered pursuant to the MTF Rules as soon as practicable upon transmission of such Confirmation to the Participant and notify the Operator in writing as soon as reasonably practicable of any error or omission that is identified.

24.2 Regardless of the means of delivery, pursuant to these MTF rules, each Participant agrees that a Confirmation represents legally binding documentation representing the agreement of the parties to all the terms of the Transaction.

25. Trading Hours

25.1 Participants are prohibited from sending any Orders or entering into any Transaction on the Tullett Prebon Securities MTF outside of the designated Trading Hours for the Tullett Prebon Securities MTF. The Trading Hours for the Tullett Prebon Securities MTF are as specified in the Products and Procedures Manuals, subject to any variation as may be published by the Operator in a Market Notice from time to time.

25.2 In order to ensure orderly system functionality, the commencement of trading may be postponed for a Market Segment or Trading Hours may be extended or shortened for a Market Segment, at the Operator's discretion.

SECTION 7 TRADE TRANSPARENCY

26. Pre-trade Transparency

26.1 Where required under Applicable Law, the Operator will make public, on a continuous basis during Trading Hours, details of Orders, including current bid and offer prices and the depth of trading interest at those prices which are advertised through a Market Segment ("**Pre-Trade Data**"). The Operator may seek to obtain and apply a Transparency Waiver from publication of all or part of such Pre-Trade Data. Where the Operator has been granted a Transparency Waiver, the Operator will be exempted from the requirements to publish Pre-Trade Data to the extent provided for by the applicable Transparency Waiver. Details of applicable Transparency Waivers are available on request.

27. Post-trade Transparency

27.1 Where required under Applicable Law, the Operator will make public, as close to real-time as technically possible, the price, volume and time of Transactions executed on the Tullett Prebon Securities MTF ("**Post-Trade Data**").

27.2 The Operator may seek to obtain and apply a Deferral from publication of all or part of such Post-Trade Data. Where the Operator has been granted a Deferral, the Operator may effect deferred publication of Post-Trade Data to the extent provided for by the applicable Deferral. Details of applicable arrangements for deferred publication of Post-Trade Data are available on request.

27.3 If a component of a Package Transaction is Executed or registered on an Execution Venue other than the Tullett Prebon Securities MTF, the component may be subject to publication requirements for Pre-Trade Data and/or Post-Trade Data at the Execution Venue where the component is Executed or registered. Those requirements may be different than those applicable to components Executed on or registered by the Tullett Prebon Securities MTF.

28. Publishing Pre-Trade Data and Post-Trade Data

28.1 Pre-Trade Data and Post-Trade Data will be made available to the public separately.

28.2 The Operator or an Affiliate of it may make Pre-Trade Data and Post-Trade Data available to the public on a reasonable commercial basis. However, Pre-Trade Data and Post-Trade Data will be made available to the public free of charge five minutes after initial publication.

29. Market Data and Information

29.1 The Operator may make market data and other anonymised information regarding Orders (including prices and amounts), Transactions and any other matters it may deem appropriate available to Participants and other persons at such times and in such manner (whether through the Tullett Prebon Securities MTF, a ticker, financial information services or otherwise) as it may determine from time to time.

29.2 All market data or other information that the Operator or any service provider provides to the Participant in connection with its use of the Tullett Prebon Securities MTF is proprietary to the Operator (or the service provider, as applicable).

29.3 Participants are not permitted to retransmit, redistribute, or otherwise disclose such data or information to any third party, including without limitation in aggregated format, or to incorporate

it into a benchmark, without the Operator's (or, as applicable, the relevant service provider's) prior agreement, except as required by Applicable Law.

30. Participant Status

- 30.1 For the purposes of record keeping and reporting, the Operator may treat each Participant as dealing on own account and the Authorised Trader submitting a Trade Request as the investment decision maker with respect to that Trade Request, unless expressly notified otherwise by the Participant.

SECTION 8 CLEARING AND SETTLEMENT

31. Clearing

- 31.1 Each Cleared Derivative Transaction shall be cleared through the Clearing House indicated in the Products and Procedures Manuals or as agreed by the parties in accordance with Applicable Law, provided that the relevant Clearing House is one of those recognised by the Operator for the clearing of Transactions executed on the Tullett Prebon Securities MTF. The Clearing Houses currently recognised by the Operator are specified in the Products and Procedures Manuals. The Operator may recognise additional Clearing Houses by issuing a Market Notice.
- 31.2 For each Cleared Derivative Transaction, the Participant must have a clearing account with the relevant Clearing House or with a Clearing Member of such Clearing House.
- 31.3 A Participant accessing a Clearing House must comply with the rules and procedures of the relevant Clearing House in respect of the clearing and settlement of the relevant Transactions. Where the rules and procedures of the Clearing House with respect to clearing and settlement conflict with this Rule 31, the rules and procedures of the relevant Clearing House shall take precedence in that respect.

32. Settlement

- 32.1 Participants are responsible for the timely settlement of Transactions which have been Executed or registered under the MTF Rules in accordance with Applicable Law.
- 32.2 Without prejudice to Rule 32.1, if a component of a Package Transaction is Executed or registered on an Execution Venue or Registering Execution Venue other than the Tullett Prebon Securities MTF, then the clearing and settlement arrangements of that other Execution Venue or Registering Execution Venue will apply to that component.
- 32.3 The Operator is not responsible for and shall not be liable for the default of any Participants on any Transaction. Transactions undertaken on the Tullett Prebon Securities MTF are not subject to any compensation scheme.
- 32.4 A Participant submitting an Order or a Registered Trade for registration on the Tullett Prebon Securities MTF, involving a customer of that Participant, warrants and represents that, at the time of submission and at all relevant times:
- 32.4.1 it is not aware of any event or circumstance that would prevent the timely settlement of any Transaction resulting from such Order or Registered Trade under the MTF Rules in accordance with Applicable Law; and
 - 32.4.2 it has made its customer aware of the requirements of the MTF Rules that are relevant to the Registered Trade.

SECTION 9 CONFLICTS OF INTEREST

33. Conflicts of Interest

33.1 The Operator's Conflicts of Interest Policy sets out the arrangements that enable the Operator to identify clearly and manage the potential adverse consequences for the operation of the Tullett Prebon Securities MTF, or for Participants, of any conflict of interest between the interest of the Tullett Prebon Securities MTF or the Operator and the sound functioning of the Tullett Prebon Securities MTF.

33.2 The Operator's Conflicts of Interest Policy is published on the Operator's website and can be accessed through the following URL:

34.1 Participants shall effect Transactions in a responsible manner, act in a fit and proper manner, and meet applicable standards of market integrity. Participants shall not:

34.1.1 enter into a Transaction, submit an Order, or otherwise engage in any behaviour which:

- (d) is in a Prohibited Instrument; or

34.1.2 commit any act or engage in any course of conduct which will or is likely to bring the Operator into disrepute;

Such information may include without limitation the Participant's open trading positions or Transactions to which the Participant is a party.

36.2 Participants shall respond promptly to requests made under Rule 36.1.

37. Information-Sharing

SECTION 18 ERROR TRADES POLICY

51. Introduction

51.1 This Section sets out the factors and processes that the Operator may consider and employ when:

51.1.1 determining whether a Transaction is an Error Trade, resulting in its adjustment or cancellation; and

51.1.2 handling trade disputes and Transaction review requests from Participants.

52. Determination of Error Trades

52.1 The Operator may determine to review a Transaction at its own discretion or upon a Participant's request to ascertain whether a Transaction constitutes an Error Trade.

52.2 The Operator reserves the right to unilaterally cancel or adjust any Transaction which is an Error Trade, including in instances where there has been no request from a Participant in the interest of maintaining a fair and orderly market.

52.3 When exercising discretion in relation to a review request, the Operator will take into account the circumstances of the request, and each request will be reviewed on a case-by-case basis.

52.4 The decision of the Operator will be final.

52.5 To determine whether a Transaction constitutes an Error Trade, the Operator may contact/consult other Participants and other market participants, who may be Affiliates of the Operator, and may consider any relevant information, including but not limited to:

52.5.1 the last traded price on the venue in the relevant instrument;

52.5.2 any existing or recent quotes, orders or trades in the relevant instrument on the venue at the time of execution of the relevant Transaction;

52.5.3 the price of the same or related instrument in another market;

52.5.4 the market conditions at the time of the relevant Transaction including levels of activity and volatility;

52.5.5 the review request where applicable; and

52.5.6 any other factor which the Operator, at its sole discretion, may deem relevant.

52.6 Without limitation, the unavailability of counterparty credit shall not by itself render a trade an Error Trade.

53. Transaction Review Request Procedure

53.1 A Participant's request for review of a Transaction must be made within 15 minutes from the time of execution of the relevant Transaction and in writing by e-mail to the Operator.

- 53.2 Review requests received after fifteen (15) minutes from the time of execution of the Transaction will only be considered where there are unusual or mitigating circumstances resulting in the delay in requesting a review.
- 53.3 After receiving the review request, the Operator shall, provided that the request is consistent with the Operator's obligations to maintain an orderly market, promptly inform, by telephone or email, the other counterparty to the Transaction that the Transaction is subject to a review request.
- 53.4 The Operator shall notify, by telephone or email, the counterparties to the relevant Transaction whether or not the Transaction is determined to be an Error Trade, and shall use its reasonable endeavours to do so as promptly as possible in order to preserve market integrity.
- 53.5 If the relevant Transaction is determined to be an Error Trade, the counterparties shall take such action as the Operator requires to put into effect any adjustment or cancellation and hold the Operator harmless, for all costs incurred by the Operator in so doing. Failure by any Participant to comply with any instruction from the Operator to cancel or adjust an Error Trade is a breach of the MTF Rules.
- 53.6 For the purposes of this Section, the Operator may treat any Participant who has Executed a Transaction or submitted it for registration as a Registered Trade as a counterparty to that Transaction, whether or not the Participant has notified the Operator that it has Executed or submitted that Transaction for another person.

8. Execution Methodology

The Repo Segment supports trading in Bilaterally Settled Transactions and Cleared Repo Transactions.

The following Trading Systems are available in the Repo Segment:

1) Central Limit Order Book

Orders submitted to the Central Limit Order Book will be matched on a price-time priority basis.

2) Volume Matching Session

In a Volume Matching Session, the Operator will set the Volume Matching Price in respect of a particular Product on the screen. When the Volume Matching Session starts, Venue Users or a Broker on behalf of Venue Users can then submit Orders for that particular Product at the Volume Matching Price, specifying the volume that they wish to trade. An algorithm will match the Orders and simultaneously Execute the Orders in accordance with the execution methodology for the Product, subject to the exercise of discretion by the Operator. To the extent there is ever a partial fill of Orders, the remainder of the volume on that Order will remain in the session as available for matching.

Volume Matching Sessions will be open to Venue Users for a defined time period. The matching methodology for Volume Matching Sessions operated in the Repo Segment works on a time priority basis. The length of the Volume Matching Session is set by the Operator and may vary in length, at the discretion of the Operator.

Any unmatched Order will be removed from the Repo Segment at the end of the Volume Matching Session.

The Operator may, at its sole discretion, remove Orders from a Trading System in accordance with the MTF Rules.
