

**PRESS RELEASE, 5<sup>TH</sup> February 2020, 0800 GMT**

## **MDXT aligns with TP ICAP's Data & Analytics Business to Maximise Value from Data**

- *Meeting client demand for flexible access to premium content*
- *Broadening data distribution to Excel, web, mobile & Symphony*
- *Supplementing existing channels to market*

**Wednesday 5<sup>th</sup> February 2020 – London** – MDX Technology (MDXT), a leading provider of solutions to help content owners maximise the value of their data, is pleased to announce that TP ICAP's Data & Analytics business has gone live with MDXT's data distribution solution. This is being implemented to support increasing client demand for flexible access to premium content by broadening data distribution channels to Microsoft Excel, web portals, mobile apps and Symphony apps, supplementing TP ICAP's Data & Analytics division's existing channels to market.

Designed to enhance the firm's overall data distribution capabilities, MDXT has been seamlessly integrated with TP ICAP's Data & Analytics division's core infrastructure to collect real-time data for direct distribution to clients via multiple end points. This important new initiative will help to further satisfy their clients' growing demand for flexible, direct access to the premium market data sets that TP ICAP's Data & Analytics business provides. It will significantly improve the overall client experience and generate new revenue streams for the business.

Roland Anderson, Chief Technology Officer - Data & Analytics, TP ICAP, commented. "The MDXT implementation is perfectly aligned with our business development strategy. The goal is to offer our clients access to a far wider range of delivery options for our data sources and enable us to continually meet the evolving demands of our users."

Paul Watmough, CEO at MDXT concluded. "TP ICAP's Data & Analytics business is a long-standing client and we are delighted to be expanding our footprint and supporting this important initiative. This clearly demonstrates the power and flexibility of the MDXT platform and the speed and ease in which it can be adapted to suit the specialist needs of our clients."

## About TP ICAP

TP ICAP is a global firm of professional intermediaries that plays a pivotal role in the world's financial, energy and commodities markets.

Operating through our core businesses, Tullett Prebon, ICAP, PVM, Coex Partners, Tullett Prebon Information, ICAP Information Services and PVM Data Services, we create strong networks in person and through technology. We provide comprehensive analysis and insight into market conditions and long-term trends. We combine data, knowledge and intelligence into contextual insight and commercial guidance. By engaging with our clients, and providing innovative products and services, we enable our clients to transact with confidence, facilitating the flow of capital and commodities around the world, enhancing investment and contributing to economic growth.

Our values of honesty, integrity, respect and excellence underpin everything we do.

## About MDX Technology Ltd

MDX Technology is leading provider of solutions to help content owners maximise the value of their data ensuring all users get the data they need, where and when they need it - on time, every time! These unique offerings were created to enhance, and fully support, the data distribution needs of both Sell and Buy side financial institutions, Trading Venues, Inter Dealer Brokers and Commodities and Energy firms. Our proven solutions, developed by the industry's leading experts in this field, are in daily use within some of the world's premier trading institutions. MDX Technology is privately owned.
