

TP ICAP appoints Roland Anderson Chief Technology Officer, Data & Analytics

London, 11 April, 2019: TP ICAP, the world's largest interdealer broker, today announces the appointment of Roland Anderson to the Data & Analytics (D&A) leadership team. This follows higher than market average revenue growth of 8% in 2018 by D&A and a strong pipeline of new products planned for the year ahead.

Roland will join as Chief Technology Officer, D&A, from NEX, where he is the Global Market Data Operations Manager. He starts at TP ICAP in May for a period of handover with Martin Walters, who will retire in June after 25 years of service. Mr Anderson previously worked at ICAP for 10 years, leading technology at ICAP Information Services.

TP ICAP is also pleased to announce that Anuj Mital will be taking on the role of Chief Administrative Officer, D&A. Mr Mital joined ICAP in July 2016 as Head of Finance Operations EMEA, and has been Global Finance Business Partner since October 2017, making significant contributions to the business. In his expanded role, Mr Mital will more actively support D&A's growth ambitions.

Commenting on the moves, Eric Sinclair, CEO of Data & Analytics, said: "The appointments of Roland and Anuj reinforce the strength and technical capabilities of our team. The new leadership will help us build on our growth and strategic ambitions. I'd like to welcome the two to their new roles and I look forward to working closely with them to drive the evolution of our business. I'd also like to thank Martin for his significant contributions over the years and wish him all the best."
