

## TP ICAP's Parameta Solutions and Liquidnet win at THE TRADE awards

**5 November 2021 – London:**

TP ICAP Group, a leading provider of market infrastructure, announces that Parameta Solutions and Liquidnet have won two prestigious accolades at THE TRADE's Leaders in Trading awards. The awards recognise the top trading talent at hedge funds, asset managers, banks, brokers, exchanges and technology vendors in the industry.

In a highly competitive shortlist, Parameta Solutions won the Outstanding Market Data Provider award. Parameta is a market-leading provider of over-the-counter (OTC) market data, from pre to post trade, helping clients manage complex markets more effectively.

Liquidnet, TP ICAP's electronic trading network, was awarded Best Dark Pool Capabilities, along with being shortlisted for four other awards, including Editor's Choice, Outstanding Dark Trading Venue and Best Market Access.

**Nicolas Breteau, CEO of TP ICAP, said:** "I am delighted that Parameta Solutions and Liquidnet have both been recognised as leaders in their respective markets by THE TRADE awards, particularly against such excellent competition. These awards are testament to the commitment of our respective teams and the ongoing trust our clients place in us. Thank you all."

**ENDS**

### About TP ICAP Group plc

TP ICAP Group plc is a leading global markets infrastructure and data solutions provider. The Group operates a portfolio of separate and competing brands to deliver intermediary services, contextual insights and intelligence, trade execution, pre- and post-trade services, and data-led solutions. We are formed of four business divisions:

- **Global Broking:** the largest Interdealer Broker in the world operating under the *ICAP*, *Tullett Prebon* and *Louis Capital* brands servicing clients in Rates, FX, Credit and Equities. We match buyers and sellers, facilitate price discovery, liquidity, execution and risk management.
- **Energy & Commodities:** the world's leading OTC energy and commodities broker operating under the *ICAP*, *PVM* and *Tullett Prebon* brands. Active in all major commodities markets including oil, gas, power, renewables, ferrous metals, base metals, precious metals and soft commodities.

- **Agency Execution:** serving the buy side operating under the *Liquidnet* and *COEX Partners* brands. We provide trading services for a broad range of asset classes, serving a sophisticated client base of asset managers, asset owners and hedge funds.
- **Parameta Solutions:** formed of two businesses - Data & Analytics (D&A) and Post Trade Solutions. D&A is the world leader in providing of scarce, neutral OTC data. Consequently, it is well placed to offer unbiased data products and solutions that facilitate trading, enhance transparency, reduce risk, improve operational efficiency and a broad range of risk management solutions. Post Trade Solutions provides pure electronic services focused on resetting, compression and repo.
