

## TASK FORCE ON CLIMATE-RELATED FINANCIAL DISCLOSURES

**TP ICAP is committed to continued adoption and alignment with the recommendations of the Task Force on Climate-related Financial Disclosures**

### Statement of Compliance

TP ICAP is committed to continued adoption and alignment with the recommendations of the Task Force on Climate-related Financial Disclosures. In compliance with the FCA Listing Rule LR 9.8.6R(8) on climate-related disclosure, we believe the information contained within this report to be consistent with the TCFD recommendations and recommended disclosures. We recognise that we are on a journey of continual improvement – with more to do – to move iteratively towards the most comprehensive response to TCFD. 2022 saw the Company commission a high-level qualitative climate change scenario assessment and focus on governance and risk. Reflecting our journey of improvement, this report sets out what we did in 2022, and what we will be doing in 2023. Our 2023 work programme includes a detailed quantitative and qualitative scenarios analysis, encompassing risks and opportunities. Completion of this detailed scenario analysis puts the Company on a pathway to full TCFD compliance by the end of 2023. All relevant information is included in this Annual Report on pages 62-70.

### INDEX

Recommendation	Disclosure location
<b>Governance</b>	
a) Board oversight	63
b) Management's role	63-64
<b>Strategy</b>	
a) Climate-related risks and opportunities	65-66
