Key Notes: IGDL Discount Structure

For Brokerage Discounts on Voice:

1. Discounts are determined by combining New York and London gross voice execution brokerage and applied to activity during both London and New York hours as a rebate at the end of the month.
2. “Gross voice execution brokerage” means in respect of a Participant (i) brokerage accrued by the participant for all transactions executed using Voice RFQ and (ii) all transaction fees accrued by the participant for all transactions transacted using Broker-entered orders, including brokerage on Clearing House Basis Swaps transacted using Voice RFQ and transaction fees for Clearing House Basis Swaps transacted using Broker-entered orders.
3. Thresholds that determine the amount of the discount are calculated based on, and discounts are applied to, the gross voice execution brokerage accrued by a participant for the current month.

For i-Swap fees (as described on the Trade Execution Fee Card tab of the IGDL SEF Fee Card):

1. Calculation of “Total Monthly Electronic Fees” for i-Swap are the greater of the following:
 - a. “Trader-entered” transaction fees plus “Broker-entered” transaction fees²; or
 - b. Minimum TPH i-Swap Front End User Minimum Fee³
2. The i-Swap invoice will reflect the Total Monthly Electronic Fees (as defined above) less any Broker-entered transaction fees.

For i-Swap streaming discounts and eTrading Discounts:

1. Participants who qualify for both the Streaming Discount and the eTrading Rebate on any given month will receive the greater of the two.

² Trader-entered and Broker-entered are defined on the “Notes” tab of the ICAP Global Derivatives Limited Trade Execution Fee Card. This calculation includes fees for Clearing House Basis Swaps.

³ See Minimum Fees on the Fees tab of the IGDL SEF Fee Card

i-Swap Streaming Program

Summary

IGDL offers additional discounts that will be applied towards a participant's gross voice execution brokerage for a particular month based on a participant's streaming activity on i-Swap for Medium Term Interest Rate Swap instruments. IGDL offers two streaming tiers: Premium Streaming Tier and Base Streaming Tier. Participants can obtain discounts in the Base Streaming Tier by meeting the streaming requirements for the covered instruments set out below in the relevant table. Additionally, participants are eligible to achieve greater discounts by meeting the requirements in the Premium Streaming Tier. Discount percentage for those that meet the Premium Streaming Tier requirements is based on the participant's final rank in the League Table. The League Table rankings are computed by IGDL using the below defined League Table Methodology.

Discount achieved in any given month in either the Premium Streaming Tier or Base Streaming Tier will be applied to the following month's gross voice execution brokerage.
