57. Introduction

- 57.1 This Section sets out the factors and processes that the Operator may consider and employ when:
 - 57.1.1 determining whether a Transaction is an Error Trade resulting in its adjustment or cancellation; or
 - 57.1.2 handling trade disputes and Transaction review requests from Venue Users.

58. Determination of Error Trades

- 58.1 The Operator may determine to review a Transaction at its own discretion or upon a Venue User's request to ascertain whether a Transaction constitutes an Error Trade.
- 58.2 The Operator reserves the right to unilaterally cancel or adjust any Transaction which is an Error Trade, including in instances where there has been no request from a Venue User, in the interest of maintaining a fair and orderly market.
- 58.3 When exercising discretion in relation to a review request, the Operator will take into account the circumstances of the request, and each request will be reviewed on a case-by-case basis.
- 58.4 The decision of the Operator will be final.
- 58.5 To determine whether a Transaction constitutes an Error Trade, the Operator may contact/consult other Venue Users and other market participants, who may be Affiliates of the Operator, and may consider any relevant information, including but not limited to:
 - 58.5.1 the last traded price on the venue in the relevant instrument;
 - 58.5.2 any existing or recent quotes, orders or trades in the relevant instrument on the venue at the time of execution of the relevant Transaction;
 - 58.5.3 the price of the same or related instrument in another market;
 - 58.5.4 the market conditions at the time of the relevant Transaction including levels of activity and volatility;
 - 58.5.5 the review request where applicable; and
 - 58.5.6 any other factor which the Operator, at its sole discretion, may deem relevant.
- 58.6 The unavailability of counterparty credit shall not by itself render a trade an Error Trade.

59. Transaction Review Request Procedure

- 59.1 A request for review of a Transaction by a Venue User must be made within 15 minutes from the time of execution of the relevant Transaction and in writing by e-mail to the Operator.
- 59.2 Review requests received after 15 minutes from the time of execution of the Transaction will only be considered where there are unusual or mitigating circumstances resulting in the delay in requesting a review.

- 59.3 After receiving the review request, the Operator shall, provided that the request is consistent with the Operator's obligations to maintain an orderly market, promptly inform, by telephone or email, the other counterparty to the Transaction that the Transaction is subject to a review request.
- 59.4 The Operator shall notify, by telephone or email, the counterparties to the relevant Transaction whether or not the Transaction is determined to be an Error Trade, and shall use its reasonable endeavours to do so as promptly as possible in order to preserve market integrity.
- 59.5 If the relevant Transaction is determined to be an Error Trade, the counterparties shall take such action as the Operator requires to put into effect any adjustment or cancellation and hold the Operator harmless, for all costs incurred by the Operator in so doing. Failure by any Venue User to comply with any instruction from the Operator to cancel or adjust an Error Trade is a breach of the Venue Rules.
- 59.6 For the purposes of this Section, the Operator may treat any Venue User who has Executed a Transaction as a counterparty to that Transaction, whether or not the Venue User has notified the Operator that it has Executed that Transaction for another person.
